

Where do all our candidates stand?

Before you vote on Thursday 8 June, do you know where your local candidates stand on the issues that matter to you?

When all the candidates are out canvassing for your vote it's important to ask what they will do to get devolved government back up and running, to get the resources public services in Northern Ireland require, to deal with the challenges an exit from the EU may pose for Northern Ireland, and how they intend to protect equality and human rights. UNISON NI have prepared a series of leaflets setting out key questions on these issues which you can ask the candidates when they are asking for your vote. Copies are available in your branch and online at www.unison-ni.org.uk.

When you get out to vote on 8th June, make sure you do so fully aware of the positions that our local politicians will take at Westminster on the issues that matter to you, your families and your communities.
